Saturday, November 2, 2019

Time	Event Desc	Subject
9:00 AM		Office for the Aging at "Thriving in Rhinebeck"

Thriving in Rhinebeck: a Showcase of Services and Resources for Older Adults will be held on **Saturday, November 2, 2019 from 9:00 AM to 12:30 PM at Rhinebeck High School, 45 North Park Rd.** Approximately 40 organizations are expected to participate, ranging from health care / home care organizations to cultural / educational resources, transportation services and an array of civic groups with programs benefiting older adults.

'Our target audience is Rhinebeck and our neighboring communities, and we hope to attract a range of interested people – older adults, their families, their caregivers and others,' said Nina Lynch of Rhinebeck at Home, member of the organizing committee.

Archcare at Ferncliff's 33-foot Mobile Health Center will be stationed outside the main entrance of the school. Visitors can have free screenings of their sugar, cholesterol and blood pressure levels, as they would in a doctor's office.

Brian Jones, Outreach Coordinator for Dutchess County Office for the Aging, will discuss *Avoiding Scams!* in the auditorium. Other interactive presenters include Mark Power with meditation practice, Bev Lipper and *Fun with Collage* and Dr. John Roger, Partner at MOST Physical Therapy, who will discuss how working with a physical therapist can keep older adults independent, healthier, stronger, and living in their homes longer.

Dutchess County Calendar of Events

Informational tables will fill the lobby and gym of the Rhinebeck High School. Printed programs for attendees with the names of all participating organizations will be available.

In the upper parking lot of the school, AARP will host an 'Operation: Stop Scams' free shredding event. Individuals may bring up to three grocery bags of paper documents to be shredded. Metal, plastic, books, magazines and commercial shredding will not be accepted.

In addition to Rhinebeck at Home, the planning committee includes Archcare at Ferncliff, Rhinebeck Central School District and Rhinebeck Rotary Club.

Sponsors of *Thriving in Rhinebeck* are Nuvance Health, Rhinebeck at Home and Tops Markets.

Grace Church

3328 Franklin Avenue, Millbrook

Dutchess County Executive Marc Molinaro has announced the County will host four regional meetings for students, giving teens the opportunity to provide critical feedback on the innovative "Path to Promise" initiative to ensure every child in Dutchess County has access to the assets they need to become successful young adults.

Attendees will receive a brief overview of the County's "Path to Promise" and the progress that has already been made; provide input about the service and programming needs specific to their respective geographic area; and help develop the County's next steps in the implementation of the program.

Attendees will learn about, and give their input on, the "Path to Promise," continuing to help guide the process that will benefit county youth moving forward. Teens can RSVP to the meeting nearest them by emailing pathtopromise@dutchessny.gov and providing their name and hometown; those who cannot attend but still want to be involved in the "Path to Promise" implementation, or those who have questions or suggestions, can also email their input to the same address.

Planning and Development - Climate Smart Communities Task Force

Wednesday, October 2, 2019

Time	Event Desc	Subject
5:30 PM	<p>The Climate Smart Communities (CSC) program creates a network of New York municipalities seeking to increase energy efficiency and the use of renewable energy sources, while reducing the amount of greenhouse gas emissions produced and increasing communities' resiliency to impacts of climate change. Dutchess County leaders, the County Executive, and the Chairman of the Legislature have determined that involvement in these programs can help reduce overall energy usage and its associated costs, and increase the use of renewable energy sources, both in government facilities and the community at large. The program also provides guidance to local governments on best practices for mitigating and adapting to climate change and offers a source of matching grants for projects that advance stated goals.</p>	Dutchess County Climate Smart Communities Task Force

The [CSC Task Force](#) was established to review the elements of the Climate Smart Communities program in order to certify Dutchess County as a Bronze Level CSC within 12-18 months. The Task Force will be responsible for gathering the necessary data, conducting any required studies and submitting documentation to the [NYSCSC program](#) through its online portal. The Task Force meets on a quarterly basis and meetings are open to the public.

6:00 PM		Illuminated! How to Plan for Site Lighting in Your Community

Illuminated! How to Plan for Site Lighting in Your Community

Site lighting is essential in our communities for preserving community character and enhancing safety and security. Over-illumination can waste energy, increase project costs, and have negative impacts to people and the environment. Zoning regulations set the parameters for the levels of illumination and the design of lighting associated with new commercial, residential, and industrial development. A well-informed planning process ensures site lighting is appropriate for the use. Learn the basics of lighting including common terminology, light types, and how to read a photometric plan, and gain an understanding of why site lighting matters and how to incorporate a review of site lighting into the SEQR and the planning process.

Dutchess County Calendar of Events

This course will review the basics of site lighting plans: what they are; how to read them; and what to look for to determine if lighting levels are appropriate for a proposed use. In addition, the course will discuss templates for site lighting standards which can be incorporated into community zoning regulations, including standards related to LED lighting. The course will share examples of site lighting including the good, the bad, and the ugly.

Many local officials are increasingly hearing concerns about the lack of affordable housing in our communities. This course will answer:

- What is Section 8?
- What have we learned from older, poorly planned "public housing projects"?
- How is today's affordable housing different from the "projects" of the past (with local examples)?
- Who lives in today's affordable housing?
- What is the need for affordable housing in our communities?
- What are various ways to develop affordable housing in today's market?
